LYME ART ASSOCIATION

Class: Discover and Draw
Instructor(s): Betsy Barry

Materials List

Pencils - I prefer Faber Castell Polychromos pencils and will be referencing and using these throughout the course. If you are comfortable with Prismacolor or already have a set of pencils, you are welcome to use what you are used to.

Paper - Stonehenge HOT Pressed watercolor paper (red cover) is a great choice for many of my colored pencil drawings. We will be using this paper or any other high quality smooth mixed media paper. There are many smooth papers available and much is up to you and your personal preference so I would encourage you to try out different kinds of paper when you can.

Graphite pencils
Micron pen or other waterproof ink pen
Erasers kneaded and white polymer
Sharpener - I use the Swordfish Ikon for a great sharp point. Other, less expensive hand held sharpeners are just fine as well.

Computer paper/scrap paper
